REPORT
PROMOTIONAL WORK
ST.THOMAS CHURCH-MANDIR MARG, NEW DELHI
DATE: 13-05-2007.

We thank God for providing us a great opportunity to go to the st.Thomas church (CNI) , Mandir Marg-New Delhi for promotional work and shared the ministry of Masihi Vandana.

I thank Rev.Sunder Rajan for his gracious permission to share about Masihi Vandana ministry in His church (Hindi Congregation).Almost 200 people attended and gave their attention to know the work which we are doing through masihi Vandana.I brought the fact that Radio is not an out dated medium to spread out the gospel but still an important media to share the gospel of Jesus Christ with the lost souls. I focused that there are still many provience, staes, regions, districts and villages where the vast media of communication of modern technology like television is still out of reach and if the television is available then there is no electricity. If the electricity is available then there is no cable channel which telecast the Christian programmes is not available. Therefore the Radio and Transistors are still playing an effective role to spread out the Good News of Jesus Christ and transforming the lives of the people.

The people of Chattisgarh, Madhya Pradesh (central India), Jharkhand, Bihar.Eastern part of Uttar Pradesh are still depending upon radio to listen and strengthen them spiritually through Radio messages.

After Church service many people came to us and we took this opportunity to share the ministry of Masihi Vandana in details with them.Peoploe love to listen and registered their name for our bi-monthly Hindi Masihi-Vandana magazine.

NOTABLE PROVISION:

We thank God for Mrs. She have a good voice and as we are planning to convert our audio cassettes to remixing Cds.We shared our plan with her and she willingly accepted to help us to give her voice to our remix songs cds.She also have some songs which she wanted to sing for masihi vandana.

We are grateful to God for this wonderful provision for masihi vandana Hindi promotional work in North region.
